# Letter from the Principal's Desk

**Model UN trains today's students to tomorrow's leaders. Students who do model UN would one day change the world.**

**With change being the only constant aspect, the substantial facets of life undergo enormous transformation. Invariably the changes prove to be the most sought-after requirements. MUN is one such platform that enables the young and receptive minds to augment their flair and meticulousness in fetching the anticipated changes that would benefit the society. It is an educational simulation in which students learn about diplomacy, international relations, and the United Nations. At an MUN conference, students work as the representative of a country, organization, or person, and solves a problem with other delegates. MUN teaches participants skills like research, public speaking, debating, and writing, in addition to critical thinking, teamwork, and leadership.**

**Amrita Vidyalayam believes in ardently promoting the aspiring talents and providing inevitable scope to the learners to display their potential to the fullest. The first ever offline conference of AVMUN will surely prove to be the sturdy ground for the budding leaders of tomorrow gain insight into the intricate detailing of effective speaking and debating, shouldering responsibilities and learning the different realms of diplomacy. It's a strong belief that the students partaking in the forum and debating on the prudently chosen subjects or issues will emerge as strong leaders, ready to cater practical solutions to the grim complications with a refined perspective. We astutely believe that the coveted session will serve as the lectern to the aspiring leaders who believe in demystifying the delusions that guard the society from performing rationally. We, also, sincerely hope that the brilliant scholars of your esteemed institution will enthusiastically participate in the AVMUN 2023 and hone their skills in debates and deliberations.**

**Waiting eagerly to greet you at the confabulation.**

# Letter from the Vice Principal's Desk

**When ordinary people choose to be extraordinary, history is created.**

**MUN is widely known to be a series of programs run throughout the country and the world with the goals of further understanding about the United Nations, educating participants about world issues and promoting peace and the work of the United Nations through cooperation and diplomacy.**

**With the present scenario gradually being affected by cynicism and dubiety, it is required that the young minds become inclined towards making the world alter its perspective with a refined stance towards every aspect. The AVMUN 2023 has been conceptualised with this germane goal of providing a platform to the students who aspire to bring the substantial changes. The young generation is bestowed with immense potential and is believed to have the aptitude to change the world. The youngsters are the driving force to mould the nation for a better tomorrow. By participating in the AVMUN the aspiring leaders of tomorrow will discover the broad avenues of a bright future greeting them with open arms.**

**We sincerely hope that the diligent students of your esteemed institution will enthusiastically participate in the much-awaited conference and prove their mettle by exhibiting their extraordinary debating skills and sharp intellect. See you at the colloquy.**

# Message from the MUN Coordinator

**Dear Delegates**

**It is my proud privilege to share that Amrita Vidyalayam is achieving another milestone by organizing the first offline MUN, post lockdown in India. I want to extend my gratitude to revered Bri. Samapika Ji, our visionary principal, for giving us the dream to follow and lead the society through education.**

**Under the able leadership of Vice Principal Ms. Vijiyalaxmi Anand, we at Amrita Vidyalayam always thrive for the intellectual growth of the students and enable them to become the future leaders who are knowledgeable, creative, confident, and passionate about making positive changes in the lives of others. As you participate in this first edition of the Model United Nations Conference, you will get a full taste of the complexity of international relations. You will gain a better understanding of the intricacies of negotiations, the challenges of achieving consensus, and the patience required to make diplomatic progress. These skills will help you in whatever course you choose in life. It is believed that the best learning happens in groups as it helps in collaborative learning. MUN demonstrates collaboration in its purest form. When delegates are huddled over laptops, merging their ideas and lobbying for support, they are collaborating to solve real-world problems.**

**So, I sincerely look forward to offering you warm hospitality and tremendous support in making this conference an incredible experience. I also extend my best wishes to the delegates and greetings to one and all.**
